Dear Parents and Guardians,

Re: Capital School Science Fair 2026 – Secondary School

We are pleased to announce that our school will be hosting the **Science Fair 2026**, and we would like to invite any KS3 pupils who are interested to take part. This is a **fantastic opportunity** for pupils to challenge themselves, develop their scientific thinking, and showcase their creativity to the school community.

Pupils who choose to take part will be investigating the following guiding question:

“How can science help Bahrain achieve the UN Sustainable Development Goals?”

This question allows pupils to explore real-world ideas, think critically, and design a project that reflects their interests and scientific curiosity.

To support them, **pupils who wish to participate must collect a Science Fair booklet from their science teacher.**

This booklet includes:

- The full project brief
- A “Get Started” guide
- A project proposal form
- A parental/guardian consent form
- Key dates and expectations

Please find attached the Science Fair booklet for your electronic copy.

We hope many of our pupils will take advantage of this exciting opportunity to develop their skills, express their ideas, and represent themselves proudly in the Science Fair.

If you have any questions, please feel free to contact us.

Kind regards,

Ms Millie Daintree
